Warsaw-based developer Atlas Estates supported financially the publication of the book entitled “ARCHITEKTURKI. Warsaw’s post-war buildings”. The book, authored by recognized personalities, with texts by town-planner Marlena Happach and illustrations by artist Robert Czajka, was issued by Warsaw Uprising Museum and Stefan Starzynski Institute. This unique publication, dedicated to post-war architecture of the capital, was prepared in “pop-up” technology, whereby cardboard models of buildings emerge after opening particular pages. Atlas Estates decided to partner the publication of the book due to its unique educational qualities, to help in raising the architectural awareness of Warsaw’s residents.
